### **Sample Development Trams and Condition**

1. For samples made with local fabrics, we require 24 to 48 hours for development. Once ready, samples are dispatched via DHL, FedEx, or UPS, which typically takes a minimum of 3 working days for delivery, depending on the destination.
2. For samples using imported fabrics, a minimum lead time of 7 working days is required for sample development. Shipping arrangements will follow the same process as mentioned above (via DHL/FedEx/UPS), and delivery may take at least 3 working days.
3. We always strive to ensure the sample quality meets 100% of the buyer's specifications. While we make every effort to develop and dispatch samples as quickly as possible, unexpected delays may occur during international air shipments due to uncontrollable circumstances. Therefore, we sincerely seek our buyers' understanding and cooperation in such cases.
